

A History of Service

Wesley Family Services is a comprehensive human service agency that provides a wide variety of programs, services and activities for children, families, and adults living in the Western Pennsylvania region. We remain committed to our mission...

To empower children, adults, and families by providing transformational care.

Our services are developed in accordance with national service organizations, the Alliance for Strong Families and Communities, and the National Council for Community Behavioral Health and are accredited by the Council on Accreditation of Services for Families and Children. Certification by the Council on Accreditation means that Wesley Family Services meets the highest national standards for professional performance in human services.

Personnel policies, procedures, and practices are designed and implemented to prohibit discrimination on the basis of race, color, religious creed, disability, ancestry, national origin, age, sex, or sexual orientation.

A comprehensive program of outpatient and intensive outpatient drug and alcohol services that focuses on meeting co-occurring treatment needs.

Program Overview

Drug and alcohol abuse can cost an individual their job, their family, and their life. At Wesley Family Services, we view chemical dependency as a chronic, progressive, and ultimately fatal disease that requires a lifelong pursuit of, and commitment to, recovery. Additionally, we recognize that a co-occurring condition has become the expectation in drug and alcohol treatment and that both disorders must be addressed concurrently in an integrated and supportive environment to maximize chances of treatment success.

Our Outpatient Drug and Alcohol program is committed to the treatment and rehabilitation of individuals enrolled in the program. The primary goals for each individual are:

- to obtain sobriety
- stabilization from mental illness
- develop the skills necessary to maintain a self-directed, dual recovery program from both addiction and mental illness.

In order to do so, we provide an array of personalized outpatient and intensive outpatient services for individuals, family members, and loved ones.
