Post Permanency Services

At Wesley Family Services, our Post Permanency Services are designed to provide aftercare supports and services to Pennsylvania families with Finalized Adoptions, Legal Custodianship Agreements, and Formal Kinship Agreements. The aftercare supports and services are individually designed to support cohesiveness within the family setting while providing support to help stabilize presenting behaviors and issues. Our staff are experienced in working with issues related to kinship, legal custodianship and adoption. Our Post Permanency Services are designed to be flexible and cover:

- Assessment
- Counseling
- Respite
- Support

We provide aftercare supports through the internal array of services that we offer in the areas of education, behavioral health, autism, and family support services. Wesley Family Services participates in the Post Permanency Services offered through the Statewide Adoption and Permanency Network (SWAN). As an affiliate of SWAN, we provide Post Permanency Services on behalf of the SWAN network to an identified Permanency family. Identified Permanency families are:

- Families with finalized adoption
- Families with a formal custodianship agreement
- Families with formal kinship agreement

Services Offered through SWAN

Assessment

This involves a family assessment that helps the family identify presenting issues and dynamics. Information gleaned from the assessment is used to identify supports and interventions that are needed to support the family unit.

Case Management and Advocacy

These are designed to ensure that the needs of the family are met. Efforts are focused on connecting the family with identified services and supports that are either offered by Wesley Family Services or through another community provider.

Respite Services

Respite Services are designed to alleviate the pressures of parenting children with special needs through providing planned respite care in one of our certified foster homes, assisting in payment for special programs that will enhance the bond or family cohesiveness, or assisting in locating other respite opportunities. The plan is tailored to meet the needs of the family.

Support Groups

Support groups are designed to connect the parent/caregiver with peer support. Information about existing support groups and training opportunities are shared to provide the opportunity for the parent/caregiver to share with others the difficulties and successes related to parenting a child through a Post Permanency option, i.e., adoption, legal custodianship, formal kinship care.
