Subject: Wesley Family Services Extends modifications at our Outpatient/PCIT sites (Bridgeville, Monroeville, and Wexford)

In an effort to remain vigilant in our precautions regarding CoVid 19, the following modifications will be made at our Outpatient/PCIT/CARES sites (Bridgeville, Monroeville, and Wexford). ***These precautions will be in effect beginning Monday, March 23rd and will remain in effect for a period of three weeks through Friday, April 10th . At that time, we will re-evaluate the need for ongoing extensions of these modifications.***

To ensure the health and safety of our staff and the clients we are privileged to serve, we will be providing all of our services via telehealth. If you are currently a WFS client, your therapist should be in touch to schedule a time to discuss your telehealth options. There are a variety of platforms available for telehealth to meet the needs of our clients and families. If you are interested in starting services via telehealth, please reach out to Central Access at 412-342-2270.

We will also be adding a variety of new groups to help support our clients during this trying time, including a Parent Support group and a Mindfulness and Anxiety group. If you feel you could benefit from one of these groups, please reach out to your therapist. If you are not enrolled in our services, but are interested in these or one of our other groups, please reach out to Central Access at 412-342-2270.

We welcome any further suggestions or feedback regarding our response to this situation, and encourage families to reach out to our office to share these thoughts and concerns. Thank you for your continued support as we strive to maintain a healthy and safe environment for our clients, staff, and families.
